RISK FACTORS

This section of the Prospectus provides you with information on the general risks involved when investing in a unit trust fund and the specific risks associated with the securities/instruments that the Fund will be investing in.

GENERAL RISKS

Market risk

Market risk refers to the possibility that an investment will lose value because of a general decline in financial markets, due to economic, political and/or other factors, which will result in a decline in the Fund's NAV.

Fund management risk

This risk refers to the day-to-day management of the Fund by the Manager which will impact the performance of the Fund. For example, investment decisions undertaken by the Manager as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the Deed, relevant law or guidelines due to factors such as human error, fraudulent, dishonesty or weaknesses in operational process and systems, may adversely affect the performance of the Fund.

Performance risk

There is no guarantee in relation to the investment returns or on the distribution to Unit Holders.

Inflation risk

This is the risk that your investment in the Fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce your purchasing power even though the value of the investment in monetary terms has increased.

Liquidity risk

Liquidity risk refers to two scenarios. The first is where an investment cannot be sold due to unavailability of a buyer for that investment. The second scenario exists where the investment, by its nature, is thinly traded. This will have the effect of causing the investment to be sold below its fair value which would adversely affect the NAV of the Fund.

Operational risk

This risk refers to the possibility of a breakdown in the Manager's internal controls and policies. The breakdown may be a result of human error, system failure or may be fraud where employees of the Manager collude with one another. This risk may cause monetary loss and/or inconvenience to you. The Manager will review its internal policies and system capability to mitigate instances of this risk. Additionally, the Manager maintains a strict segregation of duties to mitigate instances of fraudulent practices amongst employees of the Manager.

Loan financing risk

This risk occurs when you take a loan or financing to finance your investment. The inherent risk of investing with borrowed money includes you being unable to service the loan repayments. In the event Units are used as collateral, you may be required to top-up your existing instalment if the prices of Units fall below a certain level due to market conditions. Failing which, the Units may be sold at a lower NAV per Unit as compared to the NAV per Unit at the point of purchase towards settling the loan.

SPECIFIC RISKS

The specific risks associated with the securities/instruments in which the Fund will invest are as tabulated below:-

Credit and default risk

Credit risk relates to the creditworthiness of the issuers of the bonds or money market instruments (hereinafter referred as “investment”) and their expected ability to make timely payment of interest and/or principal. Any adverse situations faced by the issuer may impact the value as well as liquidity of the investment. In the case of rated investment, this may lead to a credit downgrade. Default risk relates to the risk of an issuer of the investment either defaulting on payments or failing to make payments in a timely manner which will in turn adversely affect the value of the investment. This could adversely affect the value of the Fund.

Interest rate risk

This risk refers to the impact of interest rate changes on the valuation of bonds or money market instruments (hereinafter referred as “investment”). When interest rates rise, the investment prices generally decline and this may lower the market value of the investment. The reverse may apply when interest rates fall.

Structured products risk

The NAV of the Fund will be impacted by the valuation of the structured product. Factors that may impact the valuation of the structured products will include, but not be limited to movement of the underlying asset, volatility of the underlying assets, interest rate levels, the correlation of the underlying assets and other such factors. Any change in the aforesaid factors would either positively or negatively impact the valuation of the structured products hence impacting the NAV of the Fund. As such, the Fund’s NAV will be exposed to potential price volatility, which will be dependent on the valuation of the structured products that the Fund invested in.

Country risk

Investments of the Fund in any countries may be affected by changes in the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of the countries in which the Fund invests. For example, the deteriorating economic condition of such countries may adversely affect the value of the investments undertaken by the Fund in those affected countries. This in turn may cause the NAV of the Fund or prices of Units to fall.

Currency risk

As the investments of the Fund may be denominated in currencies other than the base currency, any fluctuation in the exchange rate between the base currency and the currencies in which the investments are denominated may have an impact on the value of these investments. You should note that any gains or losses arising from the fluctuation in the exchange rate may further increase or decrease the returns of the investment.

Currency risk at the Fund level

The impact of the exchange rate movement between the base currency of the Fund and the currency of the underlying investments may result in a depreciation of the value of the investments as expressed in the base currency of the Fund.

Currency risk at the Class level

The impact of the exchange rate movement between the base currency of the Fund and the currency of the USD Hedged-class may result in a depreciation of your holdings as expressed in the base currency of the Fund.

Regulatory risk

The investments of the Fund would be exposed to changes in the laws and regulations in the countries the Fund is invested in. These regulatory changes pose a risk to the Fund as it may materially impact the investments of the Fund. In an effort to manage and mitigate such risk, the Manager seeks to continuously keep abreast of regulatory developments (for example, by closely monitoring announcements on regulators' website and mainstream media) in that country. The Manager may dispose its investments in that particular country should the regulatory changes adversely impact the Unit Holders' interest or diminish returns to the Fund.

RISK MANAGEMENT

In our day-to-day running of the business, we employ a proactive risk management approach to manage portfolio risks and operational risks. The Board of Directors of AHAM ("the Board") has established a board compliance & risk management committee to oversee AHAM's risk management activities both at operational level and at portfolio management level to ensure that the risk management process is in place and functioning. The board compliance & risk management committee comprises of at least three Board members and is chaired by an independent director. At the operational level, we have established a compliance & risk oversight committee with the primary function of identifying, evaluating and monitoring risks as well as to formulate internal control measures to manage and mitigate the exposure to risks that may affect the performance of the Fund, returns to the investors or Unit Holders' interest within a clearly defined framework and is primarily responsible for ensuring that the policies and procedures that have been implemented are reviewed on an on-going basis with periodic assessments. The compliance & risk oversight committee reports to the board compliance & risk management committee on a quarterly basis.

In managing portfolio risks, we engage a stringent screening process by conducting fundamental analysis of economic, political and social factors to evaluate their likely effects on the performance of the markets and sectors. Regular meetings are held to discuss investment themes and portfolio decisions taken at the meetings are then implemented according to the investment guidelines which also take into account requirements for minimum portfolio diversification across individual investment holdings, sectors, geographies and asset classes (based on the respective portfolio's objective and strategy). We also practise prudent liquidity management with the objective to ensure that the Fund is able to meet its short-term expenses including repurchase requests by the Unit Holders.

We have in place a system that is able to monitor the transactions to ensure compliance with the Fund's investment limits and restrictions. These limits are system-controlled and not manually tracked, thus reducing the probability of human error occurring in ensuring the Fund's limits and restrictions are adhered to. We also undertake stringent evaluation of movements in market prices and regularly monitor, review and report to the investment committee to ensure that the Fund's investment objective is met. Regular portfolio reviews by senior members of the investment team further reduce the risk of implementation inconsistencies and violations of the Guidelines. We also have in place a credit risk management process to reduce counterparty risk of derivatives and structured products whereby such risk arises when the counterparty is not able to meet their contractual obligations. Prior to entering into a contract with the counterparty, we will conduct an evaluation on the credit standing of the counterparty to ensure they are able to meet their contractual obligations. It is important to note that an event of downgrade does not constitute a default. If we view that the counterparty may have high credit risk, we will not hesitate to take pre-emptive measures to unwind these positions.

We also employ a performance attribution system that enables us to review the performance of the Fund to determine the key factors that have contributed and detracted from the Fund's performance. This system complements our overall risk management process as the system also provides standard risk analytics on the portfolio such as the Fund's standard deviation, tracking error and measures of excess return. The data produced by the performance attribution system is reviewed regularly and at least on a monthly basis in meetings chaired by the managing director and participated by the portfolio managers and the performance evaluation team.

! It is important to note that events affecting the investments cannot always be foreseen. Therefore, it is not possible to protect investments against all risks. You are recommended to read the whole Prospectus to assess the risks associated with the Fund. If necessary, you should consult your professional adviser(s) for a better understanding of the risks.

ASSET ALLOCATION

Bonds	Minimum 70%
Money market instruments and/or deposits	Maximum 30%

INVESTMENT STRATEGY

The Fund will focus on achieving its objective by investing a minimum 70% of the Fund's NAV in bonds and a maximum 30% of the Fund's NAV in money market instruments and/or deposits.

We will combine a top-down and bottom-up investment approach to identify investment opportunities. Macroeconomic trends and market analysis are the important considerations in deriving the top-down perspective on interest rate outlook, fixed income markets and currency movements. For its bottom-up approach, we would conduct analysis on the issuers to assess its ability to service its debt obligations.

The Fund's investment in bonds would consist of government and corporate bonds. The selection of bonds will not be constrained by credit ratings of issuances. However, the selection will depend largely on its quality where the respective issuers display strong ability to meet their financial obligations, healthy cash-flow, the collateral type, value, claims priority as well as offer highest safety for timely payment of interest and principal.

While we typically take an active trading policy, we look to maintain some core holdings that are held over the medium to long term which is similar to a buy and hold strategy. We will also maintain a trading portion for the portfolio, which we use to take advantage by participating in investment opportunities that are set to benefit from prevailing market conditions, with the aim of boosting the Fund's performance.

To achieve its objective, the Fund will also have the flexibility to hold exposure in collective investment schemes that have similar investment objectives to the Fund.

Foreign Investments

The Fund may invest in investments listed or issued in foreign markets. The decision to invest into foreign markets will be opportunistically driven where we would seek out investments that could provide a potential to enhance the returns of the Fund. The Fund will invest only into countries where the regulatory authorities are ordinary or associate members of the International Organization of Securities Commissions (IOSCO).

Derivatives

Derivative trades may be carried out for hedging purposes through financial instruments including, but not limited to, forward contracts, futures contracts and swaps. Future and forward contracts are generally contracts between two parties to trade an asset at an agreed price on a pre-determined future date. Swaps, whereas, is an agreement to swap or exchange two financial instruments between two parties.

The intention of hedging is to protect the value of the asset from any adverse price movements. For example, to hedge against foreign currency exchange risk, the Fund may enter into a currency forward contract to offset any adverse foreign currency movements by determining an agreed rate for an agreed tenure with its counterparty. While these hedging transactions would protect the Fund against potential losses, trades for hedging purposes would also limit the returns that the Fund may have potentially received from foreign exchange gains would the Fund not have hedged its foreign currency exposure.

Structured Products

We may also invest into structured products such as, but not limited to, credit linked notes. Investment into these structured products will provide the Fund with the exposure to the reference asset. Each of these products has its own targeted maturity and will expose investors to the price fluctuations of, in the case of a credit linked note, the credit that the credit linked note is linked to. As a result, any fluctuation in the price of the structured product may also lead to fluctuations in the NAV of the Fund i.e. if the price of the structured product sees a drop in price, the NAV of the Fund will also be negatively impacted. As the note is structured by an external party, investments into a structured product will also expose the Fund to counterparty risk, which we will attempt to mitigate by carrying out a stringent selection process on its counterparty prior to an investment being made. Risk into structured products will also be mitigated by limiting the Fund's total exposure to not more than 10% of the Fund's NAV.

Temporary Defensive Position

We hold the option to take temporary defensive positions that may be inconsistent with the Fund's principal strategy and asset allocation to protect the Fund against adverse market conditions that may impact the financial markets. To manage the risk of the Fund, we may shift the Fund's assets to be temporarily invested in money market instruments and/or deposits.

PERMITTED INVESTMENTS

However, a 5% allowance in excess of any limits or restrictions may be permitted where the limit or restriction is breached through the appreciation or depreciation of the NAV of the Fund (whether as a result of an appreciation or depreciation in value of the investments or as a result of repurchase of Units or payment made from the Fund).

The Manager should not make any further acquisitions to which the relevant limit is breached and the Manager should within a reasonable period of not more than three (3) months from the date of the breach take all necessary steps and actions to rectify the breach. Such limits and restrictions, however, do not apply to securities that are issued or guaranteed by the Malaysian government or Bank Negara Malaysia.

VALUATION OF THE FUND

All foreign assets are translated into RM based on the bid exchange rate quoted by Bloomberg or Reuters at 4.00 p.m. (United Kingdom time) which is equivalent to 11 p.m. or 12 a.m. midnight (Malaysian time) on the same day, or such time as stipulated in the investment management standards issued by the FiMM.

We will obtain the daily price or value of the assets for the purpose of valuing the Fund in accordance to the Financial Reporting Standard 139 issued by the Malaysian Accounting Standards Board. In the absence of daily price or value of the assets, we will use the latest available price or value of the assets respectively.

The valuation bases for the permitted investments of the Fund are as below:

Bonds

For unlisted RM denominated bonds, valuation will be done using the price quoted by a Bond Pricing Agency (“BPA”) registered with the SC. If the Manager is of the view that the price quoted by BPA differs from the market price by more than 20 basis points, the Manager may use the market price, provided that the Manager records its basis for using a non-BPA price, obtains the necessary internal approvals to use the non-BPA price and keeps an audit trail of all decisions and basis for adopting the market yield. For unlisted foreign bonds, they will be valued using the average indicative yield quoted by 3 independent and reputable institutions. For listed bonds, the valuations shall be based on the market price i.e. closing bid price. Where no market value is publicly available or where the use of the quoted market value is inappropriate, or where no market price is available, including in the event of suspension in the quotation of the listed bonds for a period exceeding fourteen (14) days, or such shorter period as agreed by the Trustee, such listed bonds are valued at fair value determined in good faith by the Manager or its delegate, based on the methods or bases approved by the Trustee after appropriate technical consultation.

Deposits

Deposits placed with financial institutions are valued by reference to the principal value of such investments and the interests accrued thereon for the relevant period.

Money Market Instruments

For money market instruments, the valuation may use the amortization method, i.e. the purchased discount or premium will be amortized to the remaining period of maturity.

Collective Investment Scheme

An unlisted collective investment schemes will be valued based on its last published repurchase price. For listed collective investment schemes, the valuation will be based on the market price. Where no market value is publicly available or where the use of the quoted market value is inappropriate, or where no market price is available, including in the event of suspension in the quotation of collective investment schemes for a period exceeding fourteen (14) days, or such shorter period as agreed by the Trustee, such listed collective investment schemes will be valued at fair value determined in good faith by the Manager, based on the methods or bases approved by the Trustee after appropriate technical consultation.

Derivatives and Structured Products

The valuation of derivatives and structured products will be based on the rates provided by the respective issuers. For foreign exchange forward contracts (“FX Forwards”), we will apply interpolation formula to compute the value of the FX Forwards based on the rates provided by Bloomberg/Reuters. If the rates are not available on Bloomberg/Reuters, the FX Forwards will be valued by reference to the average indicative rate quoted by at least 3 independent dealers. In the case where the Manager is unable to obtain quotation from 3 independent dealers, the FX Forwards will be valued in accordance to fair value as determined by us in good faith, on methods or bases which have been verified by the auditor of the Fund and approved by the Trustee.

Investors are advised that certain types of securities are required to be held until such securities mature for the “actual value” to be realised. Any sale of such securities prior to its maturity may attract costs and

penalties that would result in a value which is less than its “actual value”. As such, any valuation of such securities (prior to its maturity) are merely indicative of what the value might be and does not represent the “actual value” of such securities.

VALUATION POINT FOR THE FUND

If the Fund only has exposure to investments in Malaysia, the Fund shall be valued at 6.00 p.m. on every Business Day (or “Trading Day” or “T” day). However, if the Fund has exposure to investments outside of Malaysia, the Fund shall be valued at 11.00 a.m. on the next Business Day (or “T+1”).

If the foreign market in which the Fund is invested therein is closed for business, the Manager will value the investment based on the latest available price as at the day the particular foreign market was last opened for business.

POLICY ON GEARING AND MINIMUM LIQUID ASSETS REQUIREMENTS

The Fund is not permitted to borrow cash or other assets (including the borrowing of securities within the meaning of the Securities Borrowing and Lending Guidelines [SBL Guidelines]) in connection with its activities. However, the Fund may borrow cash for the purpose of meeting repurchase requests for Units and such borrowings are subjected to the following:-

- the Fund’s borrowing is only on a temporary basis and that borrowings are not persistent;
- the borrowing period should not exceed one (1) month;
- the aggregate borrowings of the Fund should not exceed 10% of the Fund’s NAV at the time the borrowing is incurred; and
- the Fund may only borrow from financial institutions.

Except for securities lending as provided under the SBL Guidelines, none of the cash or investments of the Fund may be lent. Further, the Fund may not assume, guarantee, endorse or otherwise become directly or contingently liable for or in connection with any obligation or indebtedness of any person.

In structuring the portfolio of the Fund, we will maintain sufficient liquid assets to ensure short-term liquidity in the Fund to meet operating expenses and possible repurchase of Units.

TERMINATION OF THE FUND

The Fund may be terminated in the following events:-

- (a) In accordance with the provisions under the “Termination of the Fund” section of this Prospectus;
- (b) Where SC has withdrawn the authorisation for the Fund under Section 256(E) of the Act; and
- (c) The effective date of an approved transfer scheme (if any) has resulted in the Fund being with no asset/property.

- Sale of Units will be honoured upon receipt of complete set of documents together with the proof of payments.

WHAT ARE THE MINIMUM INITIAL INVESTMENT, MINIMUM ADDITIONAL INVESTMENT, MINIMUM REPURCHASE AMOUNT AND MINIMUM HOLDING OF UNITS?

	USD Hedged-class	RM Class
Minimum Initial Investment	USD 5,000	RM 1,000
Minimum Additional Investment	USD 1,000	RM 100
Minimum Repurchase Amount	N/A	N/A
Minimum Holding of Units	10,000 Units	500 Units

- At our discretion, we may reduce the minimum initial investment amount, minimum additional investment amount and minimum holding of Units.

WHAT IS THE DIFFERENCE BETWEEN PURCHASING USD HEDGED-CLASS AND OTHER CLASSES?

- You should note that there are differences when purchasing Units in RM Class and USD Hedged-class.

For illustration purposes, please refer to the table below:-

Classes	RM Class	USD Hedged-class
NAV per Unit	RM 0.7302	USD 0.50
Currency exchange rate	RM 1 = RM 1	RM 1 = USD 0.25
Invested amount	RM 50,000 x RM 1 = RM 50,000	RM 50,000 x USD 0.25 = USD 12,500
Units received	RM 50,000 ÷ RM 0.7302 = 68,474 Units	USD 12,500 ÷ USD 0.50 = 25,000 Units

Invested amount = RM 50,000 x currency exchange rate of the Class

Units received = Invested amount ÷ NAV per Unit of the Class

By purchasing Units in the RM Class, you will receive more Units for every RM invested in the Fund (i.e. 68,474 Units) compared to purchasing Units in the USD Hedged-class (i.e. 25,000 Units). Higher unit holdings (regardless of value) may give you an advantage when voting is taken by poll at Unit Holders

meetings as you have more voting rights due to the larger amount of Units held (except in situations where a show of hands is required to pass a resolution).

HOW TO REPURCHASE UNITS?

- It is important to note that, you must meet the above minimum holding of Units after a repurchase transaction.

If you insist on making a repurchase request knowing that after the transaction you will hold less than the minimum holdings of Units, you may be required to make an application to repurchase all your Units. At our discretion, we may reduce the minimum Units of repurchase.

- You may submit the repurchase request by completing a transaction form and returning it to us between 8.45 a.m. to 3.30 p.m. on a Business Day.
- In the transaction form, you may choose to receive the repurchase proceeds in a manner of cheque or bank transfer. If cheque is your option, we will issue the cheque in your name. If bank transfer is your option, proceeds will be transferred to your bank account. Where Units are held jointly, payment will be made to the person whose name appears first in the register of Unit Holders.
- Any incurred bank charges and other bank fees due to a withdrawal by of cheque, bank transfer or other special arrangement method will be borne by you.

WHAT IS THE PROCESS OF REPURCHASE APPLICATION?

- For a repurchase request received or deemed to have been received by us at or before 3.30p.m. on a Business Day (or “T day”), Units will be repurchased based on the NAV per Unit of a Class for that Business Day. Any repurchase request received after 3.30p.m. will be transacted on the next Business Day (or “T + 1 day”).
- Repurchase of Units must be made in terms of Units and not in terms of USD or RM value.
- Processing is subject to receipt of a complete transaction form and such other documents as may be required by us.

TRANSFER FEE

A RM 5.00 transfer fee will be levied for each transfer of Units.

SWITCHING FEE

FEES AND EXPENSES

With the issuance of multiple Classes in this Fund, the fees and expenses for the Fund are apportioned based on the size of the Class relative to the whole Fund, which is also known as multi-class ratio. This apportionment is expressed as a ratio and calculated as a percentage.

As an illustration, assuming there is an indirect fee chargeable to the Fund of USD 100 and assuming further the size of the USD Hedged-class over the size of the Fund is 60% whereas the size of the RM Class over the size of the Fund is 40%, the ratio of the apportionment based on the percentage will be 60:40, 60% being borne by the USD Hedged-class.

We may (in our sole and absolute discretion), waive or reduce the amount of any fees (except the trustee fee) and expenses of the Fund, either for all the investors or a particular investor.

The following are the fees that you may **indirectly** incur when you invest in the Fund.

ANNUAL MANAGEMENT FEE

The annual management fee is up to 1.00% per annum of the NAV of the Fund. This fee is calculated and accrued daily and payable monthly to the Manager.

Please note that the example below is for illustration purposes only:

Assuming that the total NAV of the Fund (before deducting the management fee and trustee fee) is RM256,603,864.00, the accrued management fee for that day would be:-

$$\frac{\text{RM } 256,603,864.00 \times 1.00\%}{365 \text{ days}} = \text{RM } 7,030.24 \text{ per day}$$

The management fee is payable monthly to the Manager and is apportioned to each Class based on the multi-class ratio.

TRUSTEE FEE

The annual trustee fee is up to 0.07% per annum of the NAV of the Fund, subject to a minimum of RM 18,000 per annum (excluding foreign custodian fees and charges). In addition to the trustee fee which includes the transaction fee i.e. the fee incurred for handling purchase/sale of local investments, the Trustee may be reimbursed by the Fund for any expenses properly incurred by it in the performance of its duties and responsibilities.

The trustee fee is calculated and accrued daily and payable monthly to the Trustee.

Please note that the example below is for illustration purposes only:

Assuming the NAV of the Fund is RM 256,603,864.00 for the day, the accrued trustee fee for the day would be:-

$$\frac{\text{RM } 256,603,864.00 \times 0.07\%}{365 \text{ days}} = \text{RM } 492.11 \text{ per day}$$

The trustee fee is payable monthly to the Trustee and is apportioned to each Class based on the multi-class ratio.

ADMINISTRATIVE FEES

Only fees and expenses that are directly related and necessary to the business of the Fund may be charged to the Fund. These include the following:-

- Commissions/fees paid to brokers/dealers in affecting dealings in the investments of the Fund;
- Charges/fees paid to sub-custodian;
- Tax and other duties charged on the Fund by the government and other authorities;
- The fee and other expenses properly incurred by the auditor appointed for the Fund;
- Fees for the valuation of any investments of the Fund by independent valuers;
- Costs incurred for the modification of the Deed of the Fund other than those for the benefit of the Manager or Trustee;
- Cost incurred for any meeting of the Unit Holders other those convened by, or for the benefit of, the Manager or Trustee; and
- Other fees/expenses permitted in the Deed.

All Fund expenses are apportioned to each Class based on the multi-class ratio.

Expenses related to the issuance of this Prospectus will be borne by the Manager.

GOODS AND SERVICES TAX

The Royal Malaysian Customs Department has announced the implementation of GST with effect from 1 April 2015 onwards pursuant to the Goods and Services Tax Act 2014. Collective investment schemes are generally exempted from GST. However, some fees, charges and expenses of the Fund are subject to GST which includes:

- Sales Charge;
- Repurchase Charge (if any);
- Switching fee;
- Transfer fee;
- Management fee;
- Trustee fee; and
- Any other expenses of the Fund that may be subject to GST.

Accordingly, any rebate or shared commission should be directed to the account of the Fund.

The soft commission can be retained by us or our delegates provided that:-

- the goods and services are of demonstrable benefit to the Unit Holder in the form of research and advisory services that assist in the decision-making process relating to Unit Holders' investments; and
- any dealing with the broker or dealer is executed on terms which are the most favourable for the Fund.

All fees and charges payable by you are subject to all applicable taxes (including but not limited to goods and services taxes) and/or duties as may be imposed by the government and/or the relevant authorities from time to time.

PRICING

COMPUTATION OF NAV AND NAV PER UNIT

In this section, you will be introduced to certain terms used to explain how the Fund arrives at its NAV and consequently, NAV per Unit for each Class of the Fund. Under this section, please note the following definition:-

“Value of the Fund before Income & Expenses”	Refers to the current value of the Fund inclusive of purchases and/or repurchases before the next valuation point.
“Value of a Class before Income & Expenses”	Refers to the current value of a Class inclusive of purchases and/or repurchases before the next valuation point.

You should also note that the NAV of the Fund is determined by deducting the value of all the Fund’s liabilities from the value of all the Fund’s assets, at a particular valuation point. The NAV per Unit of a Class of Units is the NAV of the Fund attributable to a Class divided by the number of Units in Circulation for that particular Class, at the same valuation point.

Please refer to “*Valuation Point Of The Fund*” section of this Prospectus for an explanation of the valuation point.

Illustration on computation of NAV and NAV per Unit for a particular day:-

	Fund (RM)	USD Hedged- class (USD)	RM Class (RM)
Value of the Fund / Class before Income & Expenses	430,000,000.00	172,000,000.00	258,000,000
Multi-class ratio *	100.00%	40%	60%
Add: Income	2,700,000.00	1,080,000.00	1,620,000.00
Gross asset value / GAV	432,700,000.00	173,080,000.00	259,620,000.00
Less: Fund expenses	(150,000.00)	(60,000.00)	(90,000.00)

NAV of the Fund (after GST)	432,536,558.97	173,014,623.58	259,521,935.39
Total Unit in Circulation	435,000,000	174,000,000	261,000,000
NAV per Unit in Base Currency **		0.9943	0.9943
Currency exchange rate	RM 1 = RM 1	USD 1 = RM 4	RM 1 = RM 1
NAV per Unit in currency Class ***		3.9772	0.9943

For the purpose of the illustration above, the computation of NAV and NAV per Unit are based on the assumption that the expenses are inclusive of GST.

Note:

- * Multi-class ratio is apportioned based on the size of the Class relative to the whole Fund. This means the multi-class ratio is calculated by taking the *Value of a Class before Income & Expenses* for a particular day and dividing it with the *Value of the Fund before Income & Expenses* for that same day. This apportionment is expressed as a ratio and calculated as a percentage.

** NAV per Unit of a Class is derived from the following formula:-

$$\frac{\text{NAV of the particular Class}}{\text{Units in Circulation for the particular Class}}$$

The rounding policy is four (4) decimal points for the purposes of publication of the NAV per Unit per Class. However, the rounding policy will not apply when calculating the Sales Charge and Repurchase Charge (where applicable).

*** NAV per Unit in currency Class is derived from the following formula:-

$$\text{NAV per Unit of a Class in Base Currency} \times \text{Currency exchange rate for the particular Class}$$

INCORRECT PRICING

We will take immediate action to rectify any incorrect valuation and/or pricing of the Fund and/or the Units and to notify the Trustee and the SC of the same unless the Trustee considers the incorrect valuation and/or pricing of the Fund and/or the Units is of minimal significance.

The Trustee will not consider an incorrect valuation and/or pricing of the Fund and/or the Units to be of minimal significance if the error involves a discrepancy of 0.5% or more of the NAV per Unit unless the total impact on your account is less than RM 10.00 or its foreign currency equivalent, if applicable. An incorrect valuation and/or pricing not considered to be of minimal significance by the Trustee will result in reimbursement of moneys in the following manner:

	Reimbursement by:	Receiving parties:
Over valuation and/or pricing in relation to the purchase and creation of Units.	Fund	Unit Holder
Over valuation and/or pricing in relation to the repurchase of Units.	AHAM	Fund
Under valuation and/or pricing in relation to the purchase and creation of Units	AHAM	Fund
Under valuation and/or pricing in relation to the repurchase of Units	Fund	Unit Holder or former Unit Holder

COMPUTATION OF SELLING PRICE AND REPURCHASE PRICE

The Selling Price and the Repurchase Price are equivalent to the NAV per Unit. Any applicable Sales Charge and Repurchase Charge are payable separately from the Selling Price and Repurchase Price.

Forward Pricing will be used to determine the Selling Price and the Repurchase Price of the respective Class, i.e. the NAV per Unit of each Class as at the next valuation point after we receive the purchase request or repurchase request.

Calculation of Selling Price

Any Sales Charge payable by the Unit Holder would be calculated as a percentage of the NAV per Unit of the respective Class.

For illustration purposes, let's assume the following:

Class	USD Hedged-class	RM Class
Investment Amount	USD 10,000	RM 10,000
Selling Price	USD 0.50	RM 0.50
Number Of Units Received*	USD 10,000 ÷ USD 0.50 = 20,000 Units	RM 10,000 ÷ RM 0.50 = 20,000 Units
Sales Charge	2.00%	3.00%
Sales Charge Paid By Investor**	2.00% x USD 0.50 x 20,000 Units = USD 200	2.00% x RM 0.50 x 20,000 Units = RM 200
GST of 6%***	USD 200 x 6% = USD 12	RM 200 x 6% = RM 12
Total Amount Paid By Investor****	USD 10,000 + USD 200 + USD 12 = USD 10,212	RM 10,000 + RM 200 + RM 12 = RM 10,212

Formula for calculating:-

* Number of Units received	=	$\frac{\text{Amount invested}}{\text{Selling Price}}$
** Sales Charge paid by investor	=	Sales Charge x Selling Price per Unit x Number of Units received
*** GST of 6%	=	Sales Charge paid by investor x 6%
**** Total amount paid by investor	=	Amount invested + Sales Charge paid by investor + GST

Calculation of Repurchase Price

The Repurchase Price shall be the NAV per Unit. Any Repurchase Charge payable by the Unit Holder would be calculated as a percentage of the NAV per Unit of the respective Class.

For illustration purposes, let's assume the following:

Class	USD Class	RM Class
Units Repurchased	20,000 Units	20,000 Units
Repurchase Price	USD 0.50	RM 0.50
Repurchased Amount^	20,000 Units x USD 0.50 = USD 10,000	20,000 Units x RM 0.50 = RM 10,000
Repurchase Charge	0.00%	0.00%
Repurchase Charge Paid By Investor^^	0.00% x USD 10,000 = USD 0.00	0.00% x RM 10,000 = RM 0.00
GST of 6%^^^	USD 0.00 x 6% = USD 0.00	RM 0.00 x 6% = RM 0.00
Total Amount Received By investor^^^^	USD 10,000 + USD 0.00 + USD 0.00 = USD 10,000	RM 10,000 + RM 0.00 + RM 0.00 = RM 10,000

Formula for calculating:-

^ Repurchase amount	=	Unit repurchased x Repurchase Price
^^ Repurchase Charge paid by investor	=	Repurchase Charge x Repurchase amount
^^^ GST of 6%	=	Repurchase Charge paid by investor x 6%
^^^^ Total amount received by investor	=	Repurchased amount + Repurchase Charge paid by investor + GST

Cross trades

AHAM may conduct cross trades between funds it is currently managing provided that all criteria imposed by the regulators are met. Notwithstanding the above, cross trades between the personal account of an employee of AHAM and the Fund's account(s) and between AHAM's proprietary trading accounts and the Fund's account(s) are strictly prohibited. Compliance with the criteria are monitored by the Compliance Unit of the Manager, and reported to the AHAM's compliance & risk oversight committee, to avoid conflict of interests and manipulation that could have a negative impact on investors.

Policy on Dealing with Conflict of Interest

AHAM has in place policies and procedures to deal with any conflict of interest situations. In making an investment transaction for the Fund, AHAM will not make improper use of its position in managing the Fund to gain, directly or indirectly, any advantage or to cause detriment to the interests of Unit Holders. Where the interests of the directors or the committee member's interests may conflict with that of the Fund, they are to refrain from participating in the decision-making process relating to the matter. Staff of AHAM are required to seek prior approval from the executive director or the managing director before dealing in any form of securities. All transactions with related parties are to be executed on terms which are best available to the Fund and which are not less favourable to the Fund than an arms-length transaction between independent parties.

Dear Sirs

Taxation of the unit trust and unit holders

This letter has been prepared for inclusion in the Prospectus to be dated 18 July 2017 in connection with the offer of units in the unit trust known as Affin Hwang Select Bond Fund (hereinafter referred to as "the Fund").

The purpose of this letter is to provide prospective unit holders with an overview of the impact of taxation on the Fund and the unit holders.

Taxation of the Fund

The taxation of the Fund is subject to the provisions of the Malaysian Income Tax Act 1967 (MITA), particularly Sections 61 and 63B.

Subject to certain exemptions, the income of the Fund comprising interest and other investment income derived from or accruing in Malaysia after deducting tax allowable expenses, is subject to Malaysian income tax at the rate of 24% with effect from year of assessment 2016.

Tax allowable expenses would comprise expenses falling under Section 33(1) and Section 63B of the MITA. Section 33(1) permits a deduction for expenses that are wholly and exclusively incurred in the production of gross income. In addition, Section 63B allows unit trusts a deduction for a portion of other expenses (referred to as 'permitted expenses') not directly related to the production of income, as explained below.

"Permitted expenses" refer to the following expenses incurred by the Fund which are not deductible under Section 33(1) of the MITA:

- the manager's remuneration,
- maintenance of the register of unit holders,
- share registration expenses,
- secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postage.

These expenses are given a partial deduction under Section 63B of the MITA, based on the following formula:

$$A \times \frac{B}{4C}$$

where A is the total of the permitted expenses incurred for that basis period;

- B is gross income consisting of dividend¹, interest and rent chargeable to tax for that basis period; and
- C is the aggregate of the gross income consisting of dividend¹ and interest (whether such dividend or interest is exempt or not) and rent, and gains made from the realisation of investments (whether chargeable to tax or not) for that basis period,

provided that the amount of deduction to be made shall not be less than 10% of the total permitted expenses incurred for that basis period.

Exempt income

The following income of the Fund is exempt from income tax:

- **Malaysian sourced dividends**

All Malaysian-sourced dividends should be exempt from income tax.

- **Malaysian sourced interest**

- (i) interest from securities or bonds issued or guaranteed by the Government of Malaysia;
- (ii) interest from debentures or *sukuk*, other than convertible loan stock, approved or authorized by, or lodged with, the Securities Commission;
- (iii) interest from Bon Simpanan Malaysia issued by Bank Negara Malaysia;
- (iv) interest derived from Malaysia and paid or credited by banks licensed under the Financial Services Act 2013 or the Islamic Financial Services Act 2013²;
- (v) interest derived from Malaysia and paid or credited by any development financial institution prescribed under the Development Financial Institutions Act 2002²;
- (vi) interest from *sukuk* originating from Malaysia, other than convertible loan stock, issued in any currency other than Ringgit and approved or authorized by, or lodged with, the Securities Commission or approved by the Labuan Financial Services Authority (LFSA)³; and
- (vii) interest which is specifically exempted by way of statutory orders or any other specific exemption provided by the Minister.

- **Discount**

Tax exemption is given on discount paid or credited to any unit trust in respect of investments as specified in items (i), (ii) and (iii) above.

¹ Pursuant to Section 15 of the Finance Act 2011, with effect from the year of assessment 2011, dividend income is deemed to include income distributed by a unit trust which includes distributions from Real Estate Investment Trusts.

² Effective from the year of assessment 2017, in the case of a wholesale fund which is a money market fund, the exemption shall only apply to a wholesale fund which complies with the criteria as set out in the relevant guidelines of the Securities Commission Malaysia.

³ Effective from the year of assessment 2017, the exemption shall not apply to interest paid or credited to a company in the same group or interest paid or credited to a bank licensed under the Financial Services Act 2013 or the Islamic Financial Services Act 2013; or a development financial institution prescribed under the Development Financial Institutions Act 2002.

Foreign sourced income

Dividends, interest and other income derived from sources outside Malaysia and received in Malaysia by a resident unit trust is exempt from Malaysian income tax. However, such income may be subject to tax in the country from which it is derived.

Gains from the realisation of investments

Pursuant to Section 61(1) (b) of the MITA, gains from the realisation of investments will not be treated as income of the Fund and hence, are not subject to income tax. Such gains may be subject to real property gains tax ("RPGT") under the Real Property Gains Tax Act 1976 ("RPGT Act"), if the gains are derived from the sale of chargeable assets, as defined in the RPGT Act.

Goods and Services Tax ("GST")

On 1 April 2015, GST was implemented at the standard rate of 6% to replace the previous sales tax and service tax systems. Based on the Goods and Services Tax Act 2014 which was gazetted on 19 June 2014, the Fund, being a collective investment vehicle, will be making exempt supplies. Hence, the Fund is not required to be registered for GST purposes. The Fund will incur expenses such as management fees, trustee fees and other administrative charges which will be subject to 6% GST. The 6% input tax which may be incurred on such expenses will generally not be claimable by the Fund.

Taxation of unit holders

For Malaysian income tax purposes, unit holders will be taxed on their share of the distributions received from the Fund.

The income of unit holders from their investment in the Fund broadly falls under the following categories:

1. taxable distributions; and
2. non-taxable and exempt distributions.

In addition, unit holders may also realise a gain from the sale of units.

The tax implications of each of the above categories are explained below:

1. Taxable distributions

Distributions received from the Fund will have to be grossed up to take into account the underlying tax paid by the Fund and the unit holder will be taxed on the grossed up amount.

Such distributions carry a tax credit, which will be available for set-off against any Malaysian income tax payable by the unit holder. Should the tax deducted at source exceed the tax liability of the unit holder, the excess is refundable to the unit holder.

Please refer to the paragraph below for the income tax rates applicable to the grossed up distributions.

2. Non-taxable and exempt distributions

Tax exempt distributions made out of gains from the realisation of investments and other exempt income earned by the Fund will not be subject to Malaysian income tax in the hands of the unit holders.

Rates of tax

The Malaysian income tax chargeable on the unit holders would depend on their tax residence status and whether they are individuals, corporations or trust bodies. The relevant income tax rates are as follows:

Unit holders	Malaysian income tax rates
<p>Malaysian tax resident:</p> <ul style="list-style-type: none"> • Individual and non-corporate unit holders (such as associations and societies) • Co-operatives⁴ • Trust bodies • Corporate unit holders <ul style="list-style-type: none"> (i) A company with paid up capital in respect of ordinary shares of not more than RM 2.5 million (at the beginning of the basis period for the year of assessment)⁵ (ii) Companies other than (i) above 	<ul style="list-style-type: none"> • Progressive tax rates ranging from 0% to 28% • Progressive tax rates ranging from 0% to 24% • 24% (Note 1) • First RM500,000 of chargeable income @ 19%⁶ • Chargeable income in excess of RM 500,000 @ 24% (Note 1) • 24% (Note 1)
